

POWERCOLOR

PowerColor is a unique color scheme that gives the individual user a great opportunity to choose a personal surface composition, with an Individual expression. We are working in 24 colors and 4 wood laminates, in the best qualities in high pressure laminates and structural varnish.

Structure lacquer:

A waterbased coating structure mixed with small plastic balls, that makes this extra paint resist for scratches. We have chosen a waterbased coating that provides optimum respect for the environment.

Matt laminate:

Matte high pressure laminate top quality, which is the strongest surface for everyday use.

High gloss laminate:

High gloss high pressure laminate with extra scratch resistance.

Gloss WriteOn surface:

Write directly on the surfaces with whiteboard pen. A easy solution for meetings, etc.

There are following possible combination of the above surfaces:

- Structural painting / coating structure
- Matt laminate / coating structure
- High gloss laminate / coating structure
- WriteOn surface / structure painting
